craft the Community Development and Management Plan (CDMP) stages of the project. Course will also address key stakeholder communications and coordination processes critical to a successful project.

### RCI 102 ■ Team Building/ Negotiating Skills

**1 Day • All Stakeholders**

### & CDMP Training—The Process

**2 Days • Federal Stakeholders Only**

**DESCRIPTION:** The first day of this three day program, provides the critical aspects of forming and working in a team, along with an overview of negotiating skills. The second portion of the course provides an in-depth perspective of the step-by-step requirements for crafting a comprehensive Community Development and Management Plan.

### RCI 103 ■ RCI Portfolio and Asset Management Program (PAM)

**2 Days • All Stakeholders**

**DESCRIPTION:** This course explains and provides details on the roles of both the ASAIE Portfolio Manager and the Installation Asset Manager, PAM Program requirements, performance metrics, project accomplishments and lessons learned.

### RCI 104 ■ RCI Lesson's Learned Forums

**4 Days (Annual) • All Stakeholders**

**DESCRIPTION:** This forum brings together practitioners from existing and future RCI projects to discuss successes and challenges so that winning strategies can be integrated into the entire program.
